

## BUSINESS IS HUMMING IN THE TOWN OF HENRY

Farmers Are Bringing In Loads  
Of Cotton and Merchants  
Are Busy

A representative of The Parisian was down at Henry one day this week and found all the merchants busy. While there was no large crowd in town a number of farmers had brought in cotton which they had sold at more than six cents per pound, and these "old reliables" were paying up their accounts and purchasing new goods.

I. G. Jones, of the Reynolds-Jones-Atkins Co., states that business has been good with them and they expect it to be better later on, while Mr. Reynolds is walking around with a smile on his face like some one had been tickling him under the chin, and which we take as a good indication that business is going to suit the senior member of that firm.

Mr. Joyner, another of the bustling business men of that town is also wearing a smile and treating the farmers to coca cola, etc., as they come in and pay p. Mr. Joyner is a good fellow and has a business which is growing fast. He recently purchased the stock of W. L. Algea and consolidated this business with that which he had already established, and moved into a larger building. About the only thing now that is worrying Mr. Joyner is the election of Hughes, but of course he would not let anyone believe that he thought he would not be elected by a good majority, but regardless of how the election goes he will continue to wear his smile and put the goods over the counter.

Peebles & Edmondston, druggists, state that while health is very good in the community their business is fair. These people have a nice store and always have visitors with a smile. G. O. Able is still selling groceries from the same stand which he has occupied for some time and is doing a good business, while R. B. Chrisman, cashier of the Peoples Bank keeps pretty busy taking in the deposits of the farmers and merchants.

Joe B. Dill, groceryman, who recently purchased the stock of Atkins & Smith, and who is now supplying their old stand, is saying feeling good and has a business which is rapidly growing. Outside of his business the only thing Mr. Dill is interested in is the election of M. Rhodes for congress. Mr. Dill is a former Carroll countian and is sufficient reason for his political faith. Paul Sims, editor of the Progress, is progressing with the town, and states that he keeps busy in the job printing department of his shop and that he has kick to make on business conditions, while Bob Rushing circulates subscriptions for different publications and entertains the children with his melodious songs when not otherwise occupied.

## MAY ORGANIZE FARMERS UNION STORE AT HENRY

Many People Interested In Move  
For New Business and Agree  
To Take Stock

As evidence that prosperity reigns over the territory in and around Henry a move is now on foot to organize a big Farmers Union store in that town, and already a number of people have agreed to take stock to the tune of several hundred dollars.

Not only are the people living right in Henry interested in the new business but a number of farmers in that section have shown interest and signified their intention of taking some of the stock.

The movement was started by C. B. Smith, and so much interest has been taken by the people that it is stated that all stock will be sold without any trouble whatever and that more could be sold.

It is planned to conduct the business in the building which was recently vacated by Joyner Bros., this building adjoining the Peoples Bank. The building is brick and large enough to accommodate a large stock of merchandise, and is one of the best locations in the town.

Roy Algea, a former business man of Henry, but who is now living on his farm near Trezevant, is spoken of as the right man as manager, and sufficient inducement will probably be offered him to secure his services in this capacity.

Henry is a live business point and now has a number of business concerns which are a credit to the town but we believe there is room for still more, and are sure that the new concern, should it be established, will meet with success.

Miss Fruzze Allsop is looking paler this week. It is said to be caused by her having administered an overdose of chalk with matrimonial intent.

## School Attendance At Henry Growing

The school at Henry has been making some rapid strides for the past few years, and this year is growing at the same rapid pace.

The principal this year is Miss Lula Paschall, of Hazel, and she has two efficient assistants, and they are putting forth their best efforts for the further development of the school.

There were several boarding students in attendance there last year and a record was made which will hold good for some time.

Henry has a modern up-to-date school building and the citizens of that town have shown much interest in the institution for the past year or two, and do not seem to be losing any of the interest.

## Good Cotton Crop In Henry Section

Practically all the farmers around Henry have a good crop of cotton this year and are hauling it to market as fast as it is picked out.

The price being paid this year is much better than they have received heretofore, and few, if any are holding for higher prices.

The crop this year is exceedingly good and those who have only a small acreage will realize a good sum of money from it.

As a result of the high prices the farmers are receiving this year for their products business in all lines is getting better, and local merchants are expecting to do an unusually good business between now and Christmas.
